BRIGHTTOWER
Safety & Security Systems

Increase security & reduce demands on staff

BT

√ Exceeds standard visitor management systems

√ Addresses COVID compliance concerns

√ Exclusive security technology and expert training

√ On-demand learning and consulting services

Our effective, easy-to-deploy system layers software, ID readers, cameras, badging and training to monitor visitors, staff and others entering your facility. BrightTower can function as a standalone system or can optionally be integrated into existing security or building access systems. Staff and families can take advantage of on-demand learning modules designed by safety and security experts. The same experts are available for custom consulting to help address your facility's unique needs.

Your staff, patients and their families can be certain that strong safety and security measures are in place.

BrightTower Healthcare is an integrated safety & security system
made possible by Virtual-6, a partnership between:

√ VERIDOCS

Veridocs is a world leader in institutional security and safety. The company's roots in casino gaming—one of the most highly regulated industries with sophisticated technology demands—make it an ideal partner for other organizations in need of efficient tools to perform real-time ID authentication and visitor management.

BLUE★U DEFENSE

Blue-U Defense is a leader in highly innovative, turnkey, organizational safety and security management solutions. Its Blue-U Safe Turnkey Safety Solution is a one-of-a-kind, subscription-based service designed to provide effective, ongoing, and systematic training that contains all of the elements necessary to achieve true organizational and personal safety.
