

Go beyond a barcode scan. Automate age verification while strengthening security.

Our easy-to-use, affordable, modular system automates the age verification process and provides on-demand staff training designed specifically for high-risk retail markets.

- ✓ Reduce risk of liability for false identification
- ✓ Automate contactless age verification
- ✓ Help eliminate staff guesswork identifying fake & "borrowed" IDs
- ✓ Empower and protect staff with on-demand training
- ✓ Add modules for additional security layers

Tier 1 Services

Contactless ID Authentication

- Sophisticated authentication of customer IDs; more advanced than a barcode scan
- Easy-to-read age verification results
- Audit trails of ID scans for future reference or enforcement concerns

On-Demand Staff Training

- Expertly designed, retail-specific learning modules
- Value-added modules on safety in homes and communities

Tier 2 Services

Everything included in Tier 1, plus additional options:

- Facial matching of ID photo and person presenting the ID
- Watch list checks (e.g. do not serve, restricted customers, etc.)
- Security cameras with covert triggers
- Active threat monitoring
- Custom consulting with safety and security experts

Reduce liability risks and demands on your staff

- ✓ Exceeds standard ID verification systems
- ✓ Exclusive security technology and expert training
- ✓ On-demand learning and consulting services

Our effective, easy-to-deploy, standalone system layers software, ID readers, cameras, and training to protect your customers and staff. Staff can take advantage of on-demand learning modules designed by safety and security experts specifically for your industry. The same experts are available for custom consulting to help address your company's unique needs.

Your establishment can be certain that strong safety and security measures are in place.
